

## **Announcement: The result of Inspection**

Securities and Exchange Commission of Myanmar, SECM had conducted securities inspections on six (6) securities companies operating in Myanmar since April 2017 and hereby announced its completion of the process.

SECM has already noticed individual securities companies of the result of inspection and it hereby publishes summarized information on the regulatory issues detected during the course of securities inspection.

In the inspection SECM had not necessarily verified all of the securities company's business because it had to ensure efficient and effective inspection. Hence, the inspection does not necessarily authorize appropriateness of all of the securities company's business.

Securities companies are expected to improve its business according considering the issues raised here.
